

## RifeMedic Program List

**Data Version:** 3.4

**Number of Programs:** 1615

**Notes:**

1. Total times exclude filler frequency times. Each filler frequency is 15 seconds.
2. **XBV** programs are **Bacteria and Virus** programs with frequencies as determined by Dr. Hulda Clark. **XW** programs are **Parasite, Worms and Eggs** programs with frequencies as determined by Dr. Hulda Clark.  
The XBV and XW programs have high frequencies and no stimulation may be felt while running these programs due to the high frequencies. Take care not to adjust the output too high. Output intensity of 700 or below should be sufficient.
3. The program numbers in this list has no reference to program numbers of previous data versions.
